LIGHT FIELD ARTILLERY.

Beston, Mars., April 20.—Mayor Curley today requested collector of the port Edmund Billings to order the removal from wharves on the local water front of German steamers which are tied up there, as a means, he said, "of safeguarding lives and property in the event of a break in the relations between the United States and Germany."

The mayor explained that the request was made in view of the situation as it is known to the public, and not because he had received any special information.
